

MeatPad and MeatGuard: Europe's Top Performers

MeatPad

MeatGuard

ABSORPTION. CLEVER. INTEGRATED.

McAirlaid's 

Presentation is the key to success!

MeatPad

MeatGuard

A fresh, appetizing presentation of goods signals quality and significantly influences the purchase decision. On the way from producer to consumer, McAirLaid's pads, which are individually customized to the particular food, ensure high-quality freshness, hygiene and appearance.

Customized solutions: less food waste - more profit.

McAirLaid's pads
do not compromise
the recyclability
of the tray.*

* Depending on the application in the tray

all-round

high performance

Customized for all solutions!

Customized absorbent pads from McAirLaid's match all specific meat requirements and fulfil the challenge to absorb all free liquid within the packaging.

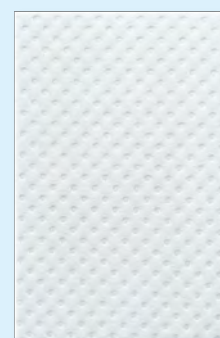

- Absorption is measured in ml/m²
- Available in rolls or already cut pads
- Liquid absorption is achieved through the surface via the micro-pore technology
- Absorption of exudate through the open sides (also in tilted position)

MeatPad with biodegradable film?!

MeatPad

MP - our all-round performance pad

Product range examples:

• For low to high absorption*

- Ideal for MAP packaging
- Available in various grades and colours

* Test method:
measured with
0,2% NaCl and
0,1 Psi

High performance under pressure.

Due to higher absorption, MeatGuard is well suited for products that release large amount of exudate. The liquid is bonded within the core and retained there even under pressure.

- Absorption is measured in ml/pad
- Available in rolls, already cut pads or festooned
- Liquid absorption is achieved through the 3D-surface-system
- Exudate is bound in the core and will not leak from the pad

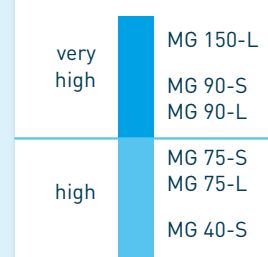

MeatGuard

MG - our high performance pad

Product range examples:

• For high to very high absorption*

- Ideal for MAP packaging
- Available in three colours and two formats
- Also available as cross production

* Test method:
measured with
0,2% NaCl and
0,1 Psi

S= 87mm x 132mm
L= 112mm x 167mm

**SuperCore: clean,
barrier-free absorption power**

Our SuperCore nonwoven material consists of pure Cellulose with excellent absorbent properties. The manufacturing technology delivers products with absolutely no adhesives or binders resulting in impressive absorption and enhanced liquid distribution compared to traditional pads.

less food waste | less CO₂ emission | more added value
