MeatPad and MeatGuard

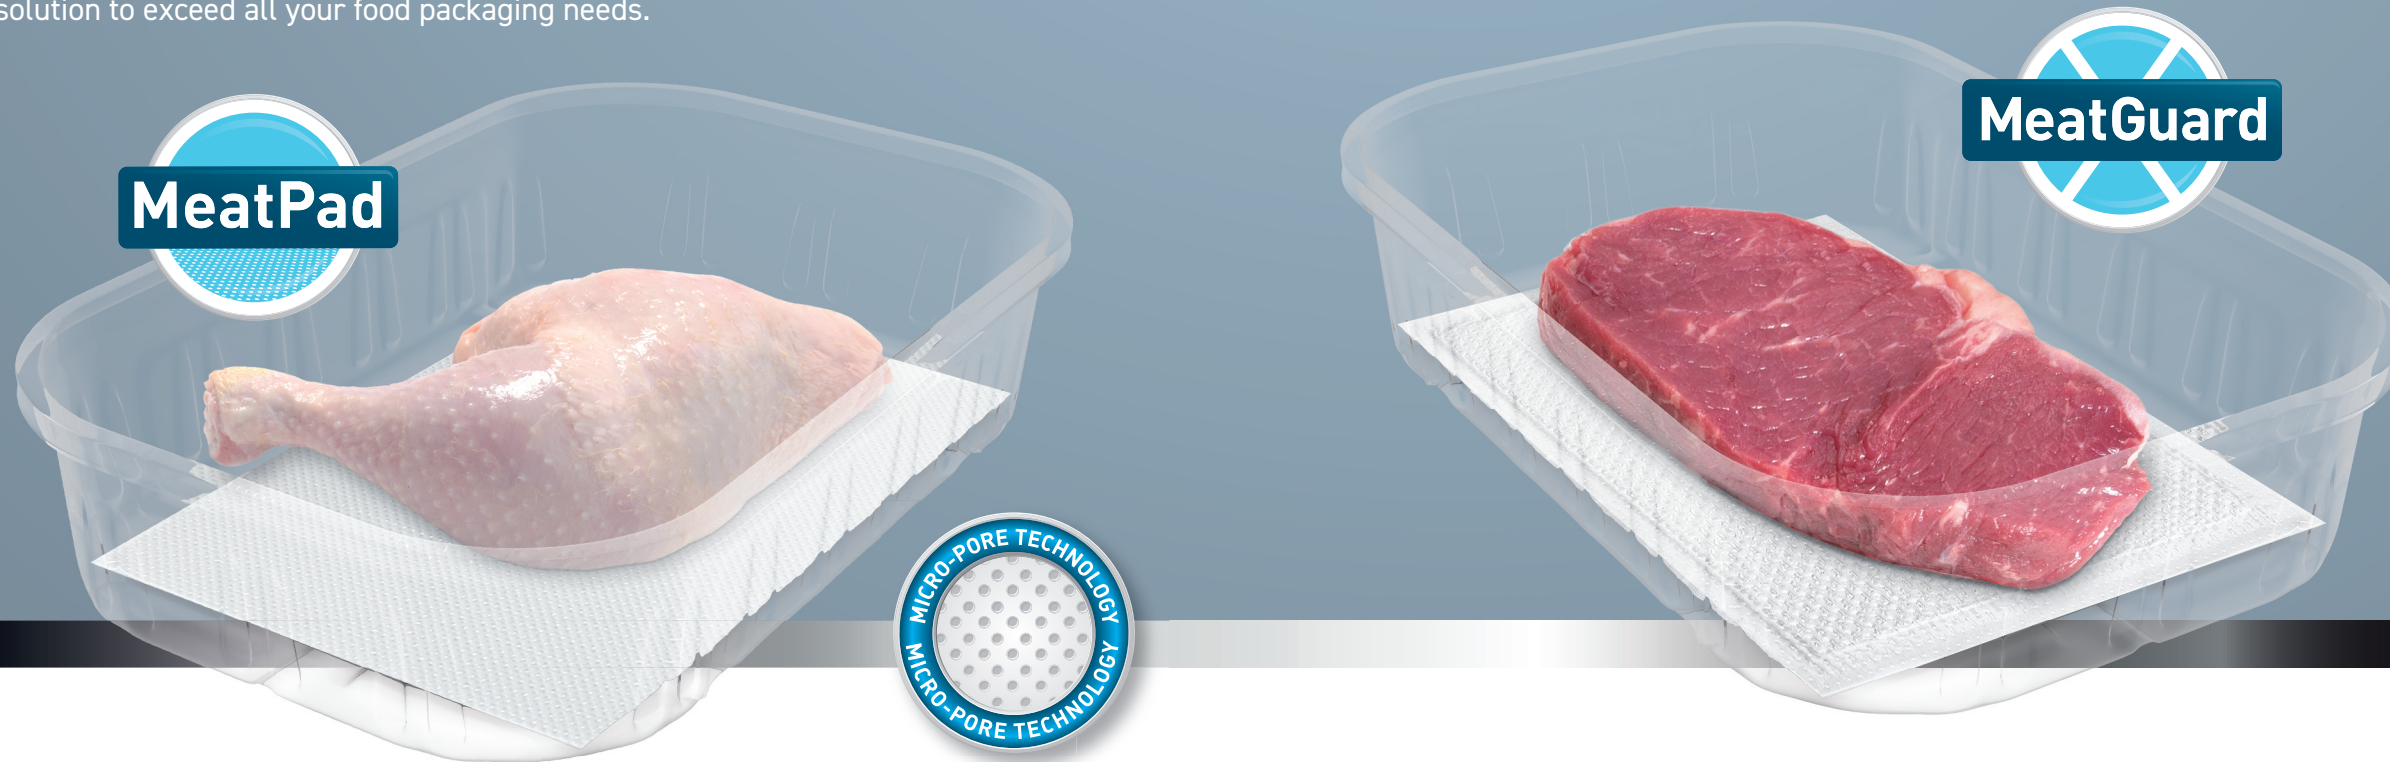

Improving the Appearance of Quality Food

MeatPad and MeatGuard - Improving the Appearance of Quality Food

A fresh, appetizing presentation of food signals quality and influences the purchasing decision of customers. From producer to consumer, McAiraid's pads ensure high-quality freshness, extended shelf life, cleaner presentation, and no sticky mess.

When you partner with McAiraid's, premium quality is guaranteed. With over 20 years of experience making absorbent products, we will work with you to create the right custom solution to exceed all your food packaging needs.

SuperCore® The Next Generation of Airlaid

SuperCore is the first airlaid produced without synthetic glues or binders. Thanks to the elimination of raw materials that are non-absorptive, such as latex, SuperCore performs better than traditional airlaids. Our SuperCore technology allows all our products to absorb and disperse at a faster, cleaner rate giving you unbeatable absorbency, superior wicking, in a thinner pad. With SuperCore your products are always a step ahead.

- **Absorption:** Individual absorption performance for every protein group.
- **Micro-Pore Technology:** Absorbs and retains exudate through open sides, even in a tilted position.
- **Hygienic:** Contains no recycled materials, glue or binders.
- **Aesthetics:** Individual colors and sizes available.
- **Bonus:** Available in reversible colors, reducing inventory and SKUs.
- **Functional:** No orientation required as pads absorb from both sides.
- **Packaging:** Supplied in rolls or as pre-cut pads.
- **Application:** Ideal for Tray Pack, Display Cases and MAP Trays.

MeatPad

The All Around Performance Pad

| Low - High Absorption | |
|-----------------------|---------------------------------------|
| High | MP 2500 |
| Medium | MP 1700 MP 1500 MP SL SuperLite |
| Low | MP 801 |

Test Method: Pads measured with 0,2% NaCl and 0,1% PSI

MeatGuard

Performance Under Pressure

| High - Very High Absorption | |
|-----------------------------|---|
| Very High | MG 920 MG 850 MG 435/440 |
| High | MG 300 MG 250 MG 160 MG 100 MG 75 |

Test Method: Pads measured with 0,2% NaCl and 0,1% PSI

- **Absorption:** Designed for high (75 ml) to very high (920 ml) protein absorption.
- **3D Surface System:** Exudate is bound in the core and will not leak from the pad, even under pressure.
- **Hygienic:** Contains no recycled paper materials.
- **Aesthetics:** Individual colors and sizes available.
- **Bonus:** Available in reversible colors, reducing inventory and SKUs.
- **Functional:** No orientation required as pads absorb from both sides.
- **Packaging:** Supplied in pre-cut pads or festooned boxes.
- **Application:** Ideal for Tray Pack, Vacuum Bags and MAP Trays.
